1. **PRODUCT AND COMPANY IDENTIFICATION**

Product Name: Fipronil (10%)/S-methoprene (9%) Spot-On Solution for Dogs and Puppies

Trade Name: FRONTLINE COMBO
FRONTLINE COMBO DOGS
FRONTLINE COMBO PARA PERROS
FRONTLINE COMBO SPOT ON CHIEN
FRONTLINE COMBO SPOT ON CHIEN S - M - L - XL
FRONTLINE COMBO SPOT ON DOGS
FRONTLINE COMBO SPOT ON DOGS S - M - L - XL
FRONTLINE COMBO SPOT ON DOGS SOL. AD US. VET.
FRONTLINE COMBO SPOT ON KUTYA A.U.V.
FRONTLINE COMP
FRONTLINE PLUS
FRONTLINE PLUS DOG
FRONTLINE PLUS KOPEK
FRONTLINE PLUS PARA PERROS

Chemical Family: Mixture: phenylpyrazole, terpenoid
Chemical Name: Mixture - NA
Synonyms: NA
Formula: None
Product Use: Veterinary medicine

**COMPANY ADDRESS**

Merial Limited
3239 Satellite Blvd.
Duluth, Georgia 30096-4640

**EMERGENCY INFORMATION:**

* Merial regards the identity of the individual components of this formulation to be proprietary information which is being withheld in accordance with the Trade Secret provisions of 29 CFR 1910.1200. Certain of the excipients included in the mixture may be classified as a health hazard. However, the excipients are at levels that are recognized as safe, and/or have been approved for use at these levels in various food, pharmaceutical and/or cosmetic products or applications.

3. HAZARDS IDENTIFICATION

**Warning!**

**Emergency Overview**
Flammable liquid and vapor. Harmful if swallowed. May be harmful in contact with skin. Causes mild skin irritation. Causes eye irritation. Very toxic to aquatic life. Do not eat, drink, or smoke when handling this material. Wash hands thoroughly after handling.

- Reactivity: 0

### National Fire Protection Association (NFPA)
- Health: 1
- Fire: 2
- Reactivity: 0

### POTENTIAL HEALTH EFFECTS
The following potential health effects may be extrapolated from the individual components of the mixture.

**EYE:**
This product may produce ocular irritation.

**SKIN:**
This product may produce dermal irritation.

**INHALATION:**
This product is not anticipated to produce vapors in a sufficient quantity that would be irritating to eyes, skin, nose and/or throat.

**INGESTION:**
This product is harmful if swallowed, and if large amounts are swallowed, could cause nausea, drowsiness, headache, tremors, and dizziness.

**CHRONIC EFFECTS:**
No specific effects of chronic exposure are known.

**SIGNS AND SYMPTOMS OF EXPOSURE:**
Ingestion of large quantities of this product may result in nausea, drowsiness, headache, tremors, and dizziness. Ocular exposure may result in transient redness, tearing or pain. Dermal exposure may result in transient discomfort or pain, local redness and swelling.

**MEDICAL CONDITIONS AGGRAVATED BY EXPOSURE:**
None known.

### POTENTIAL ENVIRONMENTAL EFFECTS
Some components of this mixture are toxic to aquatic organisms. Do not allow this product to come in contact with soil or be discharged to waterways.

### 4. FIRST AID MEASURES

**EYE CONTACT:**
In case of contact, immediately flush eyes with plenty of water for at least 15 minutes. Call a physician if irritation persists.

**SKIN CONTACT:**
In case of contact, immediately wash skin with soap and water. Remove contaminated clothing and shoes and launder before reuse. If skin irritation develops and persists or recurs, contact a physician.
5. FIRE FIGHTING MEASURES

</tbody>
</table>

UNUSUAL FIRE AND EXPLOSION HAZARDS: Prevent accumulation of vapors. When heated to decomposition, may produce oxides of carbon and nitrogen.

EXTINGUISHING MEDIA: Carbon dioxide, dry chemical extinguishers, foam, water fog or spray. Large fires with “alcohol”-type foam extinguishers. Use extinguishing media appropriate for surrounding materials. Water may be ineffective, but should be used to keep fire-exposed containers cool.

PROTECTION OF FIREFIGHTERS: Fire fighters should wear NIOSH/MSHA approved positive pressure self-contained breathing apparatus and full protective equipment.

6. ACCIDENTAL RELEASE MEASURES

For transportation-related and large spills call CHEMTREC at 1-800-424-9300. If outside the U.S.A., call CHEMTREC collect at +1-703-527-3887. For small spills, using protective equipment as prescribed in Section 8. Absorb with liquid-binding material (sand, diatomite, acid binders, universal binders, sawdust). Dispose contaminated material in sealed container as waste according to Section 13.

PERSONAL PRECAUTIONS: Evacuate unnecessary personnel and eliminate all sources of ignition. Follow protective measures provided under Personal Protection in Section 8.

ENVIRONMENTAL PRECAUTIONS: Avoid discharges to sewers and streams.

METHODS FOR CLEANING UP: For small spills, soak up with absorbent materials and place in properly labeled containers. Large spills can be removed using a vacuum truck.
7. HANDLING AND STORAGE

HANDLING: No smoking, eating, or drinking while using this product. Keep container tightly closed when not in use. Provide for adequate ventilation to prevent accumulation of vapors.

Avoid prolonged or repeated exposure. Do not get in eyes, on skin or clothing. Keep away from incompatible materials (see Section 10).

PROTECTION AGAINST EXPLOSION AND FIRES: Keep ignition sources away. Do not smoke. Protect against electrostatic charges.

STORAGE: Store in a well ventilated location.

7. EXPOSURE CONTROLS / PERSONAL PROTECTION (INDUSTRIAL)

The following component has OSHA and ACGIH exposure limits.

<table>
<thead>
<tr>
<th>Component</th>
<th>% w/w</th>
<th>OSHA PEL ppm</th>
<th>OSHA PEL mg/m³</th>
<th>ACGIH TLV-TWA/STEL ppm</th>
<th>ACGIH TLV-TWA/STEL mg/m³</th>

<td>1000</td>
<td>1880</td>
<td>1000</td>
<td>1880</td>
</tr>
</tbody>
</table>

ENGINEERING CONTROLS: Special, local ventilation is needed at points where vapor can be expected to escape to the workplace air. Use good general local exhaust ventilation to prevent accumulation of vapors.

EYE / FACE PROTECTION: Wear chemical splash goggles when cleaning spilled product or if the potential for eye contact exists (ANSI A87.1). Wear safety glasses with side shields for normal handling.

SKIN PROTECTION: Wear butyl rubber, neoprene, vinyl or other chemical resistant impervious gloves when using this product to prevent skin contact. Wash thoroughly after handling.

RESPIRATORY PROTECTION: Wear mask with organic vapor cartridge, gloves, protective clothing, and eye protection when cleaning up spills. For normal use, ensure adequate exhaust ventilation.

GENERAL HYGIENE CONSIDERATIONS: Do not eat, drink, or smoke while using this product. Wash hands thoroughly after use.

OTHER: Emergency shower and eyewash facility should be in close proximity (ANSI Z358.1).

Contaminated clothing must be cleaned and laundered before reuse. The laundry must be informed regarding the potential harmful effects and procedures for safe handling (29 CFR 1910.1048).

10. STABILITY AND REACTIVITY

STABILITY: Stable under normal conditions.

CONDITIONS TO AVOID: Avoid exposure to heat, sparks, or flame.

MATERIALS TO AVOID: Avoid strong oxidizing agents

HAZARDOUS DECOMPOSITION PRODUCTS: When heated to decomposition may produce oxides of carbon and nitrogen as well as other uncharacterized decomposition products.

HAZARDOUS POLYMERIZATION: Will not occur.

11. TOXICOLOGICAL INFORMATION

POTENTIAL EXPOSURE ROUTES: This product may be encountered through skin contact, eye contact, ingestion, or inhalation of vapors.

SIGNS AND SYMPTOMS OF EXPOSURE: Ingestion of large quantities of this product may result in nausea, drowsiness, headache, tremors, and dizziness. Ocular exposure may result in transient redness, tearing or pain. Dermal exposure may result in transient discomfort or pain, local redness and swelling.

However, adverse health effects are not considered likely when product is used appropriately using label directions. Since the product is packaged in single dose applicators and the quantity of material is small, over exposure is considered unlikely.

ATE = Acute Toxicity Estimate, NE = Not Established
The following toxicity data are derived from the formulation components, and are considered relevant to the final formulation.

**CARCINOGENICITY:**
None of the components of the mixture are considered to be carcinogenic at the dose rate and frequency stated on the packaging for this formulation.

**MUTAGENICITY:**
None of the components of the mixture are considered to be mutagenic.

**REPRODUCTIVE EFFECTS:**
None of the components of the mixture are considered to be a reproductive toxin at the dose rate and frequency stated on the packaging for this formulation.

**TERATOGENICITY/DEVELOPMENTAL EFFECTS:**
None of the components of the mixture are considered to be teratogenic or a developmental toxin at the dose rate and frequency stated on the packaging for this formulation.

**NEUROLOGICAL EFFECTS:**
Symptoms of respiratory depression or central nervous system depression may occur if exposed to the formulation in large volumes. Clinical signs include: loss of consciousness, nausea, drowsiness, headache, tremors, and dizziness.

**INTERACTIONS WITH OTHER CHEMICALS WHICH ENHANCE TOXICITY:**
None known

**12. ECOLOGICAL INFORMATION**

**TOXICITY:**

LC$_{50}$/EC$_{50}$ ranged from 0.009 to >100 mg/L for freshwater fish, invertebrates and plants.

Based on test results for the most sensitive species (freshwater invertebrates) and mathematical modeling, the environmental category for the formulation would be Category 1 Acute Aquatic Toxicity (GHS standards).

**PERSISTENCE:**

Based upon biodegradation testing, computer modeling and physico-chemical characteristics of the various components in the formulation, all of the components are inherently biodegradable in the environment.

**BIOACCUMULATION:**

The K$_{ow}$ of the individual components predict that some of the components have the potential for bioaccumulation in the environment, but based on fugacity modeling and biodegradation testing, the results would suggest that the potential is low for those components. Therefore, it is anticipated that none of the various components in the formulation would persist in the environment.

Remarks: Do not allow this product to come into contact with soil or be discharged to waterways. Components of this product are toxic to aquatic and insect species.
13. DISPOSAL CONSIDERATIONS
Responsibility for proper waste disposal is with the owner of the waste.
Dispose of all waste product and containers in accordance with local, state, federal, and national regulations.

14. TRANSPORT INFORMATION

USDOT Regulations:
- Hazard Class: 3
- Identification Number: 1170
- Packing Group: III
- Proper Shipping Name: Ethanol Solution (Ethyl Alcohol Solution)  (technical name)

*Merial Ships Under SP9275

Land Transport
ADR/RID: (cross-border)
- ADR/RID Class: 3
- Danger Code (Kemler): 30
- UN Number: 1170
- Packaging Group: III
- Proper Shipping Name: Ethanol Solution (Ethyl Alcohol Solution)

Maritime Transport
IMDG:
- IMDG Class: 3
- UN Number: 1170
- Label: 3
- Packaging Group: III
- EMS Number: F-E, S-D
- Marine Pollutant: Yes
- Proper Shipping Name: Ethanol Solution (Ethyl Alcohol Solution)

Air Transport ICAO-TI and IATA-DGR:
- ICAO/IATA Class: 3
- UN/ID Number: 1170
- Label: 3
- Packing Group: III
- Proper Shipping Name: Ethanol Solution (Ethyl Alcohol Solution)

15. REGULATORY INFORMATION

SARA 313 LISTING:
None of the components of this product are listed.

SARA 312 HAZARD CLASS:
Fire, Acute Health

SARA EXTREMELY HAZARDOUS SUBSTANCES:
None of the components of this product are listed.

EPA HAZARDOUS SUBSTANCES LIST:
None of the components of this product are listed.

TSCA INVENTORY STATUS:
The aliphatic ester component of this mixture is on the inventory.

CANADIAN WHMIS CLASS:
The aliphatic ester component of this mixture has been classified in accordance with the hazard criteria of the CPR.

GHS Hazard Phrase:
- H226 Flammable liquid and vapor
- H302 Harmful if swallowed
- H316 Causes mild skin irritation
- H320 Causes eye irritation
- H400 Very toxic to aquatic life
GHS Precautionary Phrases:

P210  Keep away from heat/sparks/open flames/hot surfaces. - No smoking.
P233  Keep container tightly closed.
P240  Ground/bond container and receiving equipment.
P241  Use explosion-proof electrical/ventilating/lighting/.../equipment.
P242  Use only non-sparking tools.
P243  Take precautionary measures against static discharge.
P280  Wash...thoroughly after handling

P303 + IF ON SKIN (or hair): Remove/Take off immediately all contaminated clothing. Rinse skin with water/shower.
P353
P370 + In case of fire: Use ... for extinction.
P378
P403 + Store in a well-ventilated place. Keep cool.
P235
P264  Wash...thoroughly after handling

P270  Do not eat, drink or smoke when using this product.
P330  Rinse mouth.
P301 + IF SWALLOWED: Call a POISON CENTER or doctor/physician if you feel unwell.
P312
P501  Dispose of contents/container in accordance with local/regional/national/international regulation.
P316  Call a POISON CENTER or doctor/physician if you feel unwell.
P305 + IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing.
P351 +
P338
P373 + If eye irritation persists: Get medical advice/attention.
P313
P273  Avoid release to the environment.
P391  Collect spillage.
